October, 2007

Dear Valued Client,

NAMSA will be re-structuring our sterilization assurance product distribution channels within Europe, as there has been a change in the business relationship between MedNet GmbH and NAMSA. Effective October 31, 2007, MedNet, NAMSA's product distributor in Germany and surrounding areas will no longer serve as a distributor for NAMSA. Many of you may have received a similar letter related to our Testing Services earlier this year.

MedNet and NAMSA have enjoyed a mutually beneficial relationship for a number of years and NAMSA is grateful for having had the opportunity to work with an excellent company like MedNet.

The re-structuring within Europe only impacts the territory which had been served by MedNet. It will be NAMSA's goal to identify a new distributor(s) for this territory. The many clients in Germany and the surrounding areas that require NAMSA's products may purchase directly from NAMSA or through one of the other European distributors until such time a new distributor is identified.

If you prefer to purchase directly from NAMSA, an order may be placed on-line at www.namsa.com/products, by email at productorders@namsa.com or by faxing 419-666-1715.

For convenience, NAMSA's Product Order Form has been included with this letter as page 3. While use of the Product Order Form is not required, it is strongly encouraged as the form ensures all pertinent information has been provided facilitating the ordering process and reducing the potential for errors.

For information related to ordering, shipment schedule/status, stock status, etc. please contact:
